

Filter Concept is one of the leading manufacturer and exporter of industrial filter Systems & Consumables for Air, Gas & Liquid applications. We will manage our company, wherever we do business, in an ethical way that strikes an appropriate and well reasoned balance between Safety, Health and Environmental needs.

“We Make the World Green For Healthy Human Beings For A Better Tomorrow “

We actively manage SHE as an integral part of our business and operations practices, and apply comprehensive SHE management systems.

As a part of it We Assure

- To contribute to green development through the establishment and implementation of environment standards that are scientifically tested and meet the requirement of relevant laws, regulations and codes of practice like ISO 9001:2008 ISO 14001: 2007 & OHSAS 18001 and ASME Standards
- We strive to minimize the environmental impact of the Industries' operations and business practices as well as to optimize the use of natural resources by our processes and products.
- We will maintain a safe workplace environment for our employees and provide appropriate information and training to increase their skills and promote their safety, health and environmental awareness. All employees have a fundamental responsibility for SHE matters at work.
- Work to prevent accidents, injuries, and unsafe work conditions; promote energy and water conservation; encourage the reuse and recycling of materials; and reduce waste, emissions and the use of hazardous substances in our operations.
- Strengthening Industries' Pollution Control Systems for preventing pollution at the source of its generation for Green Environment.
- We periodically audit our operations, business and management practices at all our sites with regard to SHE performance and compliance through independent experts.
